

Town of Ulysses, NY

WATER QUALITY & TESTING

The Town of Ulysses receives its water from Bolton Point, via the Town of Ithaca. The following water tests are performed on the water when it reaches Ulysses:

<i>test</i>	<i>frequency</i>
chlorine	daily
bacteria (e-coli & coliforms)	monthly
trihalomethanes (THMs)	monthly

Annual Water Quality Report

TTHM Levels

The [Environmental Protection Agency \(EPA\)](#) has set a federal limit of 80 parts per billion (ppm). The Town of Ulysses levels have been over that level several times in the last few years. Link to our TTHM webpage [here](#) for more information on Ulysses' TTHM issues.
